

Hard to believe I still get a buzz out of wedding photography when I shot my first one way back in 1984 & I'm still friends with that family.

When planning what is the most important day of your life you need to be sure you are getting the best photographic results. You will need a photographer with the skill, expertise and experience of a true professional, who will be there, not only to produce great photographs, but also to help guide you through the chapters of your day. As a qualified multi-award winning full time photographer I will use my many years as such to be that person. I will later design and create a beautiful bespoke handmade Italian Storybook with your choice of photographs. Thank you. *Colin Wallwork*

Opal Wedding Collection
